TRIPLE-ACTION

The Triple-Action formula has 3 direct effects on the bowel:

1. Elimination
2. Cleansing
3. Regeneration

Elimination:

The first benefit, which results from the Triple-Action formula, is the removal of any waste product filling the bowel, which could eventually lead to cancer.

Cleansing: The cleaning of the colon is different from elimination. Elimination empties the bowel from daily waste but does not clean the bowel from toxins, candidosis, worms, acidity or the crusts that are elements that stick to the mucous membrane, damaging the normal process of the digestion.

Regeneration: *Only a colon extrinsic factor can act as a cure agent.* Several plants were added to Triple-Action formula then balanced so that the plant is harmonized with another plant forming a quasi-perfect combination. Even after many months, you will notice a significant change in the clearness of the eyes and in the dryness of the skin as well as a normal process of the digestive and intestinal functions.
