

AKNESSENCE GEL

TOPICAL TREATMENT OF ACNE MANIFESTATIONS

- **ACTIVE INGREDIENTS HPUS:** Thyme, Rosewood, Lavandin, Lemon-scented Eucalyptus, Lemongrass.
- **INDICATIONS:** This topical gel helps reduce the appearance of acne, such as pimples, black heads, oily skin, etc., and helps heal the skin.
- **DIRECTIONS FOR USE:** Cleanse face and apply a small dab of gel to problem areas 3 times daily. Keep out of reach of children.
- **FORMAT:** 50 gram jar.

Keep out of reach of children.

DOCUMENTATION

Acne is often the result of seborrhea - overproduction of fat from the sebaceous glands. Essential oil treatments, combined with a sensible diet, exercise, and fresh air often clear up the problem. The lymphatic flow is increased, therefore allowing toxic wastes to be excreted, improving circulation, thus allowing oxygen and nutrients to reach the skin in greater quantity.

The bactericide properties of essential oils are extremely useful in helping the healing process. The relaxant properties of essential oils also play their part, as stress is a precursor of increased sebum production.

DESCRIPTION OF THE INGREDIENTS AND THEIR PROPERTIES:

THYME (*Thymus vulgaris*, thymol): anti-microbial, antiseptic, bactericidal, cicatrizant (healing).

ROSEWOOD (*Aniba parviflora*, Mez.): anti-microbial, antiseptic, bactericidal, tissue regenerator.

LAVANDIN (*Lavandula hybrida*): anti-microbial, antiseptic, cicatrizant (healing).

LEMON-SCENTED EUCALYPTUS (*Eucalyptus citriodora*): antiseptic, bactericidal.

LEMONGRASS (*Cymbopogon citratus*): anti-microbial, antiseptic, bactericidal, astringent.
