

NATUROCOKSINUM (FLU BUSTER) RELIEF OF COLD AND FLU-LIKE SYMPTOMS

Homeolab's NATUROCOKSINUM has no side effects and will not interact with any medication. Thus, everyone - children as well as adults - may benefit from it, even pregnant women and people with hypertension.

- **ACTIVE INGREDIENTS HPUS:** Anas barbariae, Hepatis Et. Cordis Extractum 200C. Single-dose tube of 1 g.
- **INDICATIONS:** Traditionally used in prevention as well as treating symptoms of influenza and colds : fatigue, fever, chills, aches and pains
- **DIRECTIONS FOR USE:** At the first signs of the flu, take the content of one single-dose tube under the tongue (1/2 dose for children). Repeat every 8 hours, 2 or 3 times, if necessary. Prevention: During the flu season, take one single-dose tube once a week. (1/2 dose for children).
- **FORMAT:** 3 and 6 single-dose tubes

DOCUMENTATION

Anas barbariae, Hepatis Et. Cordis Extractum are micro-doses of autolysed liver and heart of Barbary duck.

Research at the Mayo Clinic of the United States has shown that chicken soup has some antiviral action. Since chicken soup is basically a broth of chicken organs, perhaps Anas barbariae, Hepatis Et. Cordis Extractum would be effective because it is "duck soup". (Discovering Homeopathy, Dana Ullman)
