

CREAMS

FAST ACTING & UNSCENTED

ARNICA + PAIN RELIEF CREAM

Helps relieve minor bruises, strains and sprains. Contains Arnica, Hypericum and Symphytum. Arnica is an old remedy famous for its ability to relieve pain from bruises, sprains, strains or any traumatic injury without an open wound. Hypericum is a nerve remedy used in the treatment of trauma to the nerves as well as to the fingers, toes and nails. Symphytum acts on joints and bones and is used to relieve injury to the sinews and tendons.

CALENDULA + FIRST-AID CREAM

For minor cuts, scrapes and burns. Contains Calendula, Echinacea, Hypericum, Phytolacca, Cantharis and Sulfur. Calendula is a remarkable remedy that helps promote healthy granulations and rapid healing of the skin. Echinacea soothes the sting sensation of insect bites and other stings in general. Hypericum relieves pain. Phytolacca alleviates pains like shocks. Cantharis relieves raw, burning pains and sunburn pain. Sulfur is recommended for relief from burning and itching sensation.

CAPSICUM + ARTHRI-CREAM

Relieves arthritic pain, tendonitis, joint stiffness, sciatica and backache. Contains Capsicum, Rhus toxicodendron, Arnica, Calendula, Symphytum and Hypericum. Capsicum helps relieve pain radiating from the hips down to the feet; sciatica and tensive pain in the knee. Rhus toxicodendron is used for rheumatic pains associated with cold weather, shoulder pain, pain and stiffness in small of back, stiffness in the nape of the neck, hot painful swelling of the joints, tearing pains in the tendons and ligaments, crawling sensation in the tips of the fingers. Arnica is recommended for gout, pain in the back and the limbs, soreness after overexertion and rheumatism. Calendula is used for excessive pain. Symphytum acts on joints and bones and helps relieve neuralgia of the knee. Hypericum is used to reduce pain in the nape of the neck, darting pain in the shoulders, cramps in the calves and pain in the fingers and toes.

HERPES SOOTHING CREAM

Soothing relief from cold sores, shingles, herpes and blisters. Contains Hypericum, Gelsemium and Rhus toxicodendron. Hypericum is used to relieve eczema of the hands and the face, intense itching and eruptions that seems to be under the skin. Also relieves shingles. Gelsemium helps relieve hot, dry eruptions resembling the measles. Rhus toxicodendron relieves intense itching and burning eczematous eruption with a tendency to form scales.
