

HOMEOVET HOMEOPATHIC DROPS

HOMEOPATHIC REMEDIES
FOR FARM AND DOMESTIC ANIMALS
BOTTLES OF 30 ml

ARTHRIVET

A natural solution to control osteo-arthritis, osteoporosis and resulting muscular atrophy in older or arthritic animals. Contains Arnica to relieve aches and pains, as well as localized or generalized bruising that is sensitive to the touch and to jolts; Bryonia to relieve hot swollen joints; Rhus tox. to reduce peri-arthritis inflammation; Causticum for chronic joint, tendon or muscular pains; Calcarea carbonica for ossification problems; Calcarea phosphorica for back pain and sacro-iliac joint pain; Ruta grav. for the relief of periosteum and bone pains.

BILEVET

These natural homeopathic drops provide substantial help with hepatitis, cirrhosis and hepatic lipidosis. BileVet contains Phosphorus to counter viral hepatitis, hepatic insufficiency and chronic pancreatitis; Arsenicum album for the relief of severe hepatitis and ascitis complicated cirrhosis; Chelidonium, a liver remedy for constant pain; Nux vomica to actively decongest the liver and reduce the consequences of liver intoxication; Lycopodium to take care of the infra- and extra-hepatic bile ducts.

CICATRIVET

Facilitates your animal's healing process after surgery. Its constituents include: Belladonna, indicated for skin that looks red and feels hot; Apis mellifica, indicated for skin that looks like a multitude of flea bites; Staphysagria for violent pruritis; Arnica to help dissipate bruising; Hypericum to reduce nerve trauma and Millefolium for hemorrhage with bright red blood.

DERMAVET

A natural solution to help relieve and heal superficial pyoderma and burns. Contains: Apis mellifica to counter swelling of the skin; Cantharis helps heal dark red and painful vesicular and vesicant eruptions characterized by burning plaques.

ECZEMAVET

A natural product that helps relieve miliary dermatitis and allergic skin reactions. Contains homeopathic dilutions of Graphites, indicated in the treatment of weeping eczema and localized eczema; Staphysagria, to remedy eczema with thick crusts, an irritating discharge and violent itching; and Rhus tox., recommended at the start of an acute eczema episode.

EXILEVET

Controls dominant, aggressive and hyper-excitable sexual behavior in males. Formulated with Cantharis, for excessive sexual desire accompanied by irritability, anxiety and howling; Tarentula hispana, for agitated, excited and hypersensitive animals whose state is worsened by any type of solicitation; Hyoscyamus niger, for extrovert animals with violent aggressiveness; and Lycopodium, to calm a dominant male.

LUSTREVET

Combats hair loss and restores a healthy-looking shiny coat. Contains: Phosphorus, recommended whenever there is hair loss following a severe case of pruritis; Thallium metallicum, used for hair loss in weakened animals and Fluoricum acidum, used to relieve dry, brittle and dull-looking hair that falls out easily.

RESCUEVET

A natural formulation to relieve nervous tension, stress, dread and fever. Contains: Apis, for animals that cry out and groan while in a state of stupor and sleepiness; Belladonna, for hypersensitive animals suffering from muscular spasms; Hypericum, to help relieve traumatic nerve pain; Chamomilla, for nervous animals; Ignatia, used for apprehensive, sad and depressed animals; Arnica, recommended for fear linked to physical or emotional trauma; Veratrum album, for violent symptoms and a slow depressible pulse.

TRANSPORTVET

Alleviates the symptoms of motion sickness, including vertigo, nausea and locomotive ataxia. Contains: Cocculus to help soothe vertigo and nausea; Vinca minor, to relieve nausea; Pulsatilla, to relieve vertigo with a tendency to vomit and dizzy spells; Belladonna, for vertigo, nausea, trembling and anxiety.

TRAUMAVET

A natural solution to help relieve traumatic lesions of the musculo-skeletal system. Formulated with: Arnica, to soothe aches and pains with a sensation of bruising; Ruta, indicated for periosteum or bone pains after a trauma, sprain, strain or pulled or torn articular ligaments; Hypericum, for nerve pain after a trauma, but equally related to an irritation of the nervous tissue.
